

Service Line Option Form

This form must be signed and returned to our office if you want to:

- **Defer replacement of the service line to your property.**
- **Remove and replace the landscaping yourself.**

If the form is not received by the District within 10 days from the date of this letter, the service line replacement will proceed as scheduled.

I, _____ (name), who resides at _____
_____ (address)("premises"), understand that Willows Water District ("District") intends to replace the service line between the water main and the curb stop on the premises and that landscaping located over the service line or the curb stop will need to be removed during the project and that the District will make every attempt to return your landscape to its original condition, however; because of the nature of your landscaping this may not be possible. I choose the following alternative (select one):

- I will assume responsibility for the removal and replacement of the landscaping myself prior to the service line replacement.
- I request the scheduled maintenance on the service line and curb stop be deferred at this time. I understand that in the event of a leak on the service line or other emergency in the future, the landscaping will be removed by Willows to repair or replace the service line and/or curb stop and may not be restored to its original condition.
