

Service Line Option Form

This form must be signed and returned to our office if you want to:

- **Defer replacement of the service line to your property.**
- **Pay the additional cost for full panel or additional concrete.**
- **Pay additional cost for decorative concrete.**

If the form is not received by Willows Water 10 days prior to your scheduled replacement date, the service line replacement will proceed as scheduled.

I, _____ (name), who resides at _____
_____ (address)("premises"), understand that Willows Water intends to replace the service line between the water main and the curb stop on the premises and that a portion of the driveway/walkway located over the service line or the curb stop will need to be removed during the project and that Willows Water will not cover the cost to replace the area beyond the 4' by 6' section. I choose the following alternative(s):

- I will negotiate with the District's contractor the additional cost to have the entire concrete panel in which the curb stop box is located replaced.
- I will negotiate with the District's contractor the additional cost to have a decorative concrete patch (4' by 6' or entire panel).
- I choose to schedule concrete replacement with my own contractor at my cost.
- I request the scheduled maintenance on the service line and curb stop be deferred at this time. I understand that in the event of a leak on the service line or other emergency, a section of the driveway/walkway will be cut to repair or replace the service line and/or curb stop.
